

House to Open Debate on Civil Rights Thursday

WASHINGTON (AP) — The House agreed today, with little of the bitter fighting likely to come later, to spend about seven days starting tomorrow on the administration's civil rights legislation.

By roll call vote of 290-117, with Southerners furnishing most of the opposition, it adopted a resolution providing for four days of general discussion of the controversial proposal, followed by almost unlimited time for consideration of amendments.

The vote on the resolution was not a key test. That will come on a Southern-backed amendment to guarantee jury trials or persons accused of violating federal injunctions in civil rights cases.

Supporters of the legislation were counting heavily on Eisenhower's influence to hold Republicans in line, and on support from Northern and Western Democrats.

The bill, in one form or another, is expected to pass the House. It will meet a more severe test if and when it gets before the Senate, where Southerners can filibuster.

The Southerners apparently have won a maneuver on the timing of the legislation. It was reported that a general agreement had been reached not to attempt to debate the bill on its merits today, but only to discuss the motion to bring it up for a vote.

This, in effect, would nullify the time advantage gained by the proponents of the bill when an unusual Saturday session of the House was scheduled this week.

Under the recommendations of the Rules Committee, the bill would be debated through next Monday and then would be open for amendments. Discussion and vote on these could be expected to take several more days.

Lewis-McLarty Store Starts Remodeling

Work has started on extensive repairing and remodeling of Lewis-McLarty Department Store here, it was announced today by C. C. Lewis, manager.

This work will continue through June and possibly July but the entire department store will remain open.

"We will do our best to operate as conveniently as possible for our customers during this period," Mr. Lewis said. C. D. Lauterback is the contractor.

Lewis-McLarty, Inc. actually occupies two buildings and at the present both have separate fronts. When the remodeling is finished the buildings will have one unified front with openback windows which will permit viewing the entire store from the front. The glass work is being done by the Pittsburgh Plate Glass Company.

Across this front will be a marquee-type aluminum awning which is something new in Hope.

Next the interior of the men's, boys and shoe departments will be remodeled and redecorated entirely and new fixtures installed plus extensive rearrangements. The rest of the store will be redecorated.

In making these changes we have but one thought, "our customers shopping convenience," said Mr. Lewis.

Lewis-McLarty, Inc. has operated in Hope for the past ten years. C. C. Lewis, manager, has been in the department store business here for the past 26 years.

Firms to Appeal PSC Decision

LITTLE ROCK (AP) — Six industrial firms have been given permission to appeal a rate increase granted to the Fort Smith Gas Corp.

The state Public Service Commission yesterday allowed the action although it denied a rehearing on the matter.

An application for the rehearing was filed May 28 by the six companies after the PSC approved a \$117,000 annual rate boost.

The firms are Harding Glass Co., Alma Canning Co., Good Canning Co., Radiant Glass Co., Fort Smith Cotton Oil Co., and Cherokee Cotton Oil Co.

Ike Would Ban Tests If All Nations Would

By MARVIN L. ARROWSMITH
WASHINGTON (AP) — President Eisenhower said today he would favor a complete ban on testing of atomic weapons if there could be total and complete disarmament.

Eisenhower said he would like to allay worldwide anxiety over fallout radiation.

But Eisenhower went on to say at a news conference that the United States never could join in any ban on testing unless there also were an agreement with Russia against use of atomic weapons.

The President did express doubt that this country ever again will test such tremendously devastating hydrogen bombs as it has in the Pacific on two occasions.

Eisenhower's remarks were in response to questions about the testimony before a congressional committee.

Geneticists and other scientists have said there that fallout radiation from nuclear weapons tests will damage hundreds of thousands — and perhaps millions — of the yet unborn, in terms of physical health.

Lee Remick Considered Year's Best Discovery

By HAL BOYLE
NEW YORK (AP) — At 21, Lee Remick, who looks like a vanilla ice cream cone topped with lady, is a real "fortune's darling."

Almost every season now director Elia Kazan taps a new unknown for stardom, and Lee is his discovery this year.

She has made her film debut in "A Face in the Crowd," and Kazan was so impressed with her work he took for him the unusual step of signing her up for five more pictures.

Lee, a girl with a golden touch, may not have everything in life yet, but if her luck holds out she will have.

This lassie hasn't had a disaster since she lost her baby teeth. She is tall, memorably pretty, and breathtakingly beautiful. She not only was born on the right side of the railroad tracks, but plucked a father who owned a department store. She was educated at an exclusive Manhattan finishing school.

"Sure, I've been hungry in my life," she said smiling. "But there was always plenty of food in the refrigerator."

Som girls get beauty but never get the breaks. Lee is a girl who got both.

Beck to Serve as Test to the 5th Amendment

By HERBERT FOSTER

WASHINGTON (UP) — Sen John L. McClellan (D-Ark.) predicted today the Senate will make Dave Beck Jr., a guinea pig in a contempt of Congress test case for frivolously and capriciously invoking the Fifth Amendment.

Young Beck invoked the Fifth Amendment 130 times in 40 minutes yesterday under questioning by the Senate Rackets committee.

Committee chairman McClellan said the committee will act in about 10 days on a contempt recommendation against the 36-year-old son of the Teamsters Union president.

The committee also ordered contempt proceedings against Joseph McEvoy, a nephew of the elder Beck by marriage. McEvoy, the alleged bodyguard of the six-foot, 200 pound Beck Jr., invoked the fifth 90 times.

"I don't think the Senate will hesitate 30 minutes" in approving the citation against Beck, McClellan said.

The chairman emphasized that he wants "to settle once and for all whether a witness can frivolously and capriciously invoke the Fifth Amendment."

If the Senate approves the contempt citations, the cases will be sent to the Justice Department for prosecution. Maximum penalty on conviction is one year in prison and a \$1,000 fine.

McClellan's ire seemed to focus on two angles of young Dave's performance: The Teamster president's son refused even to say whether he "honestly believed" his answers would tend to incriminate him; and he refused to say whether he knew his father — or to state where he got the name "Dave Beck Jr."

The chairman said he doubted the framers of the U. S. constitution "ever conceived that such flagrant use" would be made of the Fifth Amendment.

A reporter asked if McClellan meant Congress might propose a constitutional amendment.

"If it takes that, yes," said McClellan. "The alternative would be a law and order breakdown. You couldn't convict any criminals" if they and other witnesses could take the Fifth Amendment capriciously in all attempts to investigate them.

"The minimum requirement would be that anyone invoking the Fifth Amendment state under oath, under penalty of perjury, that he honestly believed the answer would tend to incriminate him," McClellan said.

Faubus to Undergo Minor Surgery

HOT SPRINGS, Ark. (AP) — Gov. Orval Faubus is scheduled to undergo "minor surgery" at St. Joseph Hospital here, hospital attendants said today.

A spokesman at the hospital said that the governor had entered the hospital for a rest and that the surgery would be performed during the rest period.

Faubus is being treated by a kidney specialist.

A spokesman at the governor's office in Little Rock said that office workers were told only that the "governor was ill and would not be in today."

HATES EVERYBODY — Weary and worried, Mrs. Tae Moon Cherry, a Korean bride, hides her face from photographers while her son Marvin Cherry, a member of the U.S. Air Force, stands next to her. They are in Hot Springs, Ark., to be at the bedside of her dying husband, SP3 Havis V. Cherry. Mrs. Cherry refused to pose for photographers and spanked Marvin when he "mugged" the camera. Through an interpreter Mrs. Cherry said, "I hate everybody and everything." She arrived in Arkansas last night. — NEA Telephoto

Lewisville Woman Finds Her Children

KANSAS CITY, Kan. (AP) — Mrs. Virginia Wyss, 26, Lewisville, Ark., found her four children here yesterday after an 18-month search over much of the nation.

She told Dist. Judge O. P. Claflin Jr. she last saw them the night of Dec. 15, 1955, at Pigeot, Ark., where the family then lived.

She went to church, she related, and when she returned home her husband Walter Wyss, 33, and the children were gone.

Her search led to Michigan, Illinois, Tennessee, Louisiana, California; Mrs. Wyss finally went to live with her parents in Lewisville.

Recently, she said, she was told the motor number of a black, 1949 model car her husband owned. She wrote to officials of the 46 states asking if such a car had been registered.

"I had received replies from all but six states," she testified "when I got a letter from Topeka, Kan., the other day saying such a car had been registered here."

She came to Kansas City and hired two lawyers. They obtained a habeas corpus order from Judge Claflin yesterday. An officer took Mrs. Wyss to the address shown on the car's registration and found the children there. Her husband was at work at a junk yard.

The mother was recognized by the three older children, Phillip, 7; Rhonda, 6; and Michael, 4. But the baby, Arthur, not quite 3, couldn't remember her.

"I had received the father's side of the story or 'I will have no hesitancy, and feel I will have every justification, in giving this mother her children.'"

Waiters who have had long experience in the field have been secured — Paul Haley, Sam Roach, Les Robins, Sid Rogers, C. C. Sprague, Cliff Stuart, Cliff Stewart, Charles Tarpel, Emory Thompson, Bill Tolleson, Charlie Wilson and Jim Wilson.

152 Algerian Rebels Are Reported Killed

ALGIERS (AP) — French military authorities announced today 152 nationalist rebels have been killed in a series of three battles in this revolt-torn land. They acknowledged French casualties of 16 soldiers dead and 15 wounded.

Rebel sabotage and isolated attacks cost the lives of seven other persons in Algeria.

Two North Africans were killed and half a dozen wounded in clashes between rivals Algerian factions in European France. The bulk of this trouble stemmed from scattered strikes staged by Algerian workers in industrial plants of northern France to protest the massacre of 302 of their countrymen at the village of Melouza.

The French attributed the Melouza massacre to the National Liberation Movement, P.M., which ranks Arab friends of the French among its enemies. Most of the strikers were members of the rival Algerian Nationalist Movement (M.N.A.).

In Algiers, 5,000 persons marched in a funeral procession for three French children killed in a nationalist bomb attack Monday.

Flooding Along Entire Red River Valley

DALLAS (AP) — Swollen by weeks of rain, sprawling Lake Texoma poured torrents of water down the winding Red River today, threatening floods in Texas, Oklahoma and Arkansas.

Army engineers said Texoma, which sits astride the Texas-Oklahoma border north of here, would crest at Denison, Tex., dam at 643.5 or 644 feet above sea level sometime tomorrow or Friday. The flood control pool is 640 feet and the reading last night was 642.

The engineers said they were releasing 95,000 cubic feet of water per second. Inflow was 105,000. The overflow, coupled with severe thunderstorms predicted for the lower Red River Valley today, threatened additional flooding as far as Fulton, Ark., on the lower Red.

Three-inch rains fell on the Oklahoma tributaries of the Red yesterday. The river cut across one of its loops south of Hugo, Okla., and covered U. S. 271.

Most of the 34 resorts in the Texoma area continued to take a beating from the rising waters.

Upstream, at Altus, Okla., water ran two feet over the city lake's spillway into the north fork of the Red.

Engineers said northeastern Oklahoma's Grand and Fort Gibson lakes were "substantially full and operators and residents of the river bottoms below the two dams should remain alert."

At Dallas, water sloshed near the top of the Grapevine Lake spillway and appeared likely to go over.

Three tornadoes skipped about Texas yesterday, afternoon rains fell in northeast and east Texas and the Dallas-Fort Worth area a soggy absorbed another cloud-burst.

One twister whirled as a towering waterspout in the Gulf of Mexico near Freeport, it damaged homes near Freeport and in the Quintana settlement at the mouth of the Brazos River.

Another small twister hit near Houston on the Gulf coast and uprooted trees and destroyed a sheet metal building.

A third hit south of here near Waxahachie but did no damage. The Oak Cliff section of Dallas got up to 3 inches of rain in about an hour.

PSC Sets Hearing on P. B. Water Program

LITTLE ROCK (AP) — The Arkansas Public Service Commission will hold a hearing June 14 on an application by the Pine Bluff Water Co. for approval of a \$641,018 expansion program.

The company and its parent firm, General Waterworks Corp., want to build a new water treatment plant with a 300 million gallon per day capacity, three new wells with a five million gallon capacity, three pumps with a 4 1/2 million gallon capacity and large mains to integrate the flow of water from the proposed new plant into the present distribution system.

A third hit south of here near Waxahachie but did no damage. The Oak Cliff section of Dallas got up to 3 inches of rain in about an hour.

At Boy's State Royce Wolsenberger Jr. was elected municipal judge of Wilson City and circuit clerk of Washington county.

Roy C. Thrash, Tol-E-Tex Oil Co. Hope, will participate in the annual board meeting of the Arkansas L.P. Gas Association prior to the annual convention at Hot Springs June 9.

Mr. Thrash is president of the association and will preside at several sessions.

At the 30th annual FFA Convention held at Russellville recently two Badew boys, Chester Miller and Jimmy Lewis, earned the State Future Farmers Degree.

To get this award a boy must be an outstanding worker and leader during four years of agricultural work in high school and must have earned and saved at least \$500 and pass a test at the convention covering all phases of agriculture.

Young Miller is the son of Mr. and Mrs. L. O. Miller and young Lewis is the son of Mr. and Mrs. Carl Lewis. . . . Two other Badew boys attended as delegates were Larry McNeill and Jimmy White.

Hope Lions Club workers did not get around the entire city last night in its broom sale and will complete the canvass next week.

Response last night was very gratifying for this worthy cause of helping the visually handicapped, a spokesman for the club said.

Mayor H. M. Olsen will make known his plans Thursday concerning an election of commissioners in the city manager form of government. . . . The Mayor has indicated that he intends to call the election as soon as the law allows.

This would be 60 days from June 4.

Would Suspend State Workers Indicted

LITTLE ROCK (AP) — Gov. Orval Faubus has suggested the suspension of two employees of the State Police Weights and Standards Division who were indicted by the Crittenden County Grand Jury.

Faubus, in a letter of the State Police Commission yesterday, recommended that it meet soon to consider what action it will take about indictments against D. J. Raper and B. B. Hunter.

Raper is assistant supervisor of the division's central district and Hunter is a weights man in the same district. Both are of Little Rock.

The indictments charged that Nelson Crowder of Marion, a gravel contractor, paid money to Raper and that Hunter "advised" and assisted in the payments.

The jury's report said two alleged bribes totaling \$345 formed the basis for the indictments.

Faubus' letter was addressed to Hubert Mayes of Little Rock, chairman of the State Police Commission and said in part:

"It seems that the most moderate action that could be taken, under the circumstances, would be to suspend the employees involved until such time as a court has determined their guilt or innocence."

Soft Living Hurting U. S. Children

ASHEVILLE, N. C. (AP) — America's children, reared on television, the family car and the school bus, are showing up badly in physical fitness tests, a physical education expert reported today.

Bonnie Prudden, White Plains, N. Y., newly appointed to the President's Citizen Advisory Committee on Youth Fitness, said there is "a level to which we can't go without getting into danger, both physically and emotionally."

The Russians are spending billions for physical education not sports, but gymnastics, "and they're not doing this for fun. They need a strong nation because they have plans for it," said Miss Prudden.

She urged America "to take a leaf out of their book" and get to work on our own youngsters.

Miss Prudden, a trim, dark-haired 43-year-old, who looks more like a college girl though she is the mother of two teenagers, operates an institute for physical fitness in White Plains. She came here to address the General Federation of Women's Clubs.

She said in an interview American children need more gym work and running games that build endurance, but less ball playing.

Schools aren't handling the problem, she said. Ninety per cent of the elementary schools have no gym at all and other schools are emphasizing recreation rather than physical education.

The clerk was told to advertise for bids on a new police car and a request for installation of a gasoline tank on Main was accepted and a hearing date will be advertised.

The group will hold a special meeting in the Mayor's office at 7:30 Thursday to go over matters pertaining to municipal airport.

Present Floods Cited as Need for Quick Action

WASHINGTON (AP) — An Arkansas-Oklahoma delegation today urged the House Public Works Committee to approve a 103-million dollar flood control program for Little River Valley in the two states. The area now is being plagued by floods.

The committee is considering a bill to authorize numerous water projects. The measure is similar to one passed by Congress last year but vetoed by President Eisenhower.

The Little River program, known as the modified Millwood Project, was included in last year's bill. It also is included in a bill passed by the Senate earlier this year and now being considered by the House committee.

Sen. Kerr (D-Okla.), chief spokesman for the group, emphasized that the program is needed to prevent floods in an area now being inundated, and to store water for future municipal and industrial use.

The big Millwood dam on the Little River was authorized by Congress several years ago. Upstream interests objected and a compromise was worked

seven upstream dams on tributaries on the Little River three in Arkansas and four in Oklahoma.

While the total cost would be \$103,035,000 the additional authorization needed is only \$53,285,000 because Millwood originally was authorized for \$49,800,000.

The Senate bill would direct also that the reservoirs be built with a view toward adding power generating facilities at some future date.

The Millwood project was one of those to which the President objected last year. The Budget Bureau said that the bill made no provision for payment by local interests for land value enhancement, whereas the Army Engineers had recommended a charge of \$2,281,000. The Budget Bureau said also that conditions pertaining to local contributions to water storage features of the program had not been agreed to.

Under the program, local interests would pay \$35,000,000 for water storage. Maj. Gen. E. C. Itzschner, chief of Army Engineers, said that he understands that Oklahoma has now agreed to underwrite its share of the water storage charges. No such agreement has come from Arkansas, he said, although local groups have expressed a willingness to foot the bill.

Keer strongly criticized the budget bureau for a 1952 directive setting forth criteria for approving water projects. He said the direc-

Safety WITH CONCRETE

The National System of Interstate and Defense Highways will save an estimated 3,500 lives a year. That's because it's designed for safety. To make the most of this chance for safer highways in this state, these roads should be paved for safety—with concrete.

Rigid concrete doesn't soften—it doesn't ripple and washboard under traffic. Its low crown doesn't interfere with steering. Its gritty-textured surface grips tires for safe, sure stops, even in the rain and its lighter color greatly improves visibility at night. You drive in comfort and confidence over the safest, smoothest-riding surface that highway engineers know how to build—today's new concrete roads.

DOROTHY DIX

Let Him Go Gracefully — You've No Other Choice

Dear Dorothy Dix: Joel and I went steady for a year and a half. Now I haven't seen or heard from him in four weeks. Should I write or call him?

Dear Eunice: When a boy suddenly drops a girl, it usually means he's lost interest. For you to try to find out the reason would only lead to embarrassment.

Time will heal your wounds. A new boy, of course, will help enormously. Hope you find one.

Dear Dorothy Dix: My sister-in-law leaves the sales ticket on every present she gives. Why does she do this?

Dear Bella: There are people who live by price tags. They are so impressed by money that they are sure the rest of the world has the same standards.

There's nothing you can do but tolerate these people. Don't try to imitate them or compete with them.

Dear Dorothy Dix: I'm a girl of 20, in love with a married man. What is so wrong in our going for rides, dancing or hiking together? We enjoy good, clean fun.

Dear XX: I bet you do!

Dear Dorothy Dix: Do you think it's right for a working wife to refuse to share household expenses? In 15 years I've managed to

Plan Meets to Set Up Hospital Care

LITTLE ROCK — The State Welfare Department conferred with 17 county directors here today in the first of a series of re-

save \$4,000. My wife has put away five times that much. She buys her own clothing and has paid for furniture as well as paying for half of our car.

Dear Danny Boy: Be glad your wife is thrifty. She could just as easily spend her earnings instead of putting them away where they'll ultimately benefit you both.

Stop crabbng.
 friend asks me if I love him, but doesn't tell me he loves me. He's told friends that he'd marry me if he had the money. How can I find out where I stand?

Dear Dale: Next time he puts the question to you, say, "Don't you think it's about time you said something about how you feel?"

gional meetings designed to set up machinery for the department's 3-million-dollar hospital care program.

The program, half financed by federal funds, is designed to care for persons who cannot afford Medical aid.

Seventeen counties in the central Arkansas area were represented at the meeting. Other meetings are scheduled at Jonesboro, June 7; McGehee, June 11; Texarkana, June 12; and Fort Smith, June 14.

Welfare Department officials said that when a person qualifying for aid becomes sick he must call on a physician, who then refers the application to the county welfare department. The county welfare department then may refer the patient to the Medical Center, a nearby hospital or an outpatient clinic.
